

# STATEMENT

Statement No:  
C674246

Date of issue:  
14 October 2024

Validity:  
13 October 2027

This is to state that the carbon footprint quantification process (CFP) of the organization:

## S.A.V. S.p.A. Società Alluminio Veneto

Via Colombo, 3/5 - 35010 Trebaseleghe (PD) - Italy

with the following scope of application:

- Product System: " Aluminium alloy ingots for remelting" (UN CPC product code: 4153 "Semi-finished products of aluminium or aluminium alloys")
- Production site:
  - Via Colombo, 3/5 - 35010 Trebaseleghe (PD) – Italy
  - Via dell'artigianato, 4 - 35010 Trebaseleghe (PD) – Italy
- Declared Unit (UD): 1 Kg of alloy and related packaging
- Product System Boundaries: From Cradle to Gate
- Exclusions: Maximum 1% of inputs into and/or out of the product system
- Frequency of updating CFP quantifications: annual

It has been verified in order to assess its conformity to the International Standard:

### Annex C of ISO 14067:2018 "Systematic approach to the quantification of the carbon footprint of products"

and with carbon footprint quantification methodology according to the Product Category Rules (PCR):

### PCR 2022:08 ver.1.0 "Basic aluminum products and special alloys (published by the EPD program manager "The International EPD System")

Based on the verification process conducted by DNV, nothing has been found indicating that the systematic approach to calculating the CFP is not planned and implemented by the organization in accordance with Annex C of the above mentioned quantification standard which constitutes the used verification criteria.

Place and date:  
Vimercate (MB), 14 October 2024

For the verification body:  
DNV – Business Assurance  
Via Energy Park, 14 – 20871 Vimercate - Italy
